Md. Fayzur Rahman

Frontend Developer

I'm Fayzur Rahman, a dedicated Frontend Developer with hands-on experience in building modern, responsive, and interactive web applications. I specialize in React, TypeScript, Tailwind CSS, and component-based architecture. I have developed projects including portfolio websites and e-commerce apps, translating design mockups into fully functional web pages. I am passionate about writing clean, maintainable code, optimizing performance, and collaborating with international clients to deliver high-quality frontend solutions.

Professional Experience

Sparrow Forge – Frontend Development Course Jan 2010 - Present

- Learned and applied HTML, CSS, JavaScript, TypeScript, React, and Tailwind CSS.
- Built multiple hands-on projects including portfolio and mini e-commerce app.
- Converted Figma/Adobe XD designs into fully functional responsive web pages.
- Implemented component-based architecture, reusable components, and state management.
- Gained experience in version control using Git and GitHub.
- Optimized web pages for performance, accessibility, and cross-browser compatibility.
